THEO. P. HAUGHEY, Pros't H. LATHAY, Cash. CONDITION OF THE MARKETS

MONEY, BONDS AND STOCKS. An Unusually Duil Market, with a Weak and Feverish Feeling. NEW YORK, June 4 .- Money on call was

easy at 14 22 per cent., the last loan being made at 11. closing offered at 1 211.

Prime mercantile paper, 4 &6 per cent. Sterling exchange was quiet, but steady, at \$4.864 for sixty-day bills and \$4.884 for demand.

The total sales of stocks to-day were 109,431 shares, including the following: Missouri Pacific, 7,549; Northern Pacific preferred, 6,070; Oregon & Transcontinental, 3,670; Reading, 25,600; St. Paul, 14,900; Union Pacific, 18,728. The stock market was again intensely dull today, and while strong in the first hour and the last half hour, was quite weak and somewhat feverish throughout the day. Only three stocks, however, made any protensions to animation-Reading, Union Pacific and St. Paul. There was very little movement in the last-mentioned stock, and it was traded in over a range of only per cent. for the entire day, while none of the active stocks showed a range of more than I per cent. The movements in the list were confined to a very few stocks, and these were principally among the usually inactive stocks-Pullman, Caseago, Burington & Quincy and one or two others being most conspicuous. The opening was at slight advances over Saturday's final figures and the market showed an improving tenency during the first hour, which carried some of the list to the neighborhood of a point above the opening, Union Pacific and Missouri Pacific being most conspicuous. The feverishness then appeared, and prices sagged off. Missouri Pacific developed considerable weakness, but it was not until the last hour. when the lowest prices of the day generally were made, that its decline reached anything like no-table proportions. The dullness was intense throughout after 11 o'clock, the only relief to the stagnation being a drop of 1 in Burlington, followed by a recovery of 1 per cent. and an advance of 1 per cent. in Rock Island, and one of 1; per cent in Pullman. The decline, however, was accelerated after delivery hour, but it was then checked and prices rallied immediately, the close being dull, but firm, at something better than first prices.

Almost everything is fractionally higher this evening, and Pullman gained 1; Northern Pa-

The railroad bond market was quiet, Nickelplate fours furnished \$108,000 out of a total day's business of \$1,042,000. Government bonds were dull and steady to

INDIANAPOLIS MARKETS. More Activity Noticeable in Trade Circles-The Week Opening Quite Satisfactorily.

INDIANAPOLIS, June 4. In the wholesale markets, to-day, more activity was noticeable than last week, and the belief prevails that some of the loss of business in May, through the unseasonable weather, will be made up this month, providing the weather ever becomes summer-like in its character. The dry goods men reported a number of good buyers in, and mail orders were larger than for some time past. No changes in values. Grocers were quite busy. Sugars, coffees, teas, spices, starch, in fact, groceries of all descriptions, are firm and unchanged. The belief prevails that coffees will go off in the near future on the more favorable reports from the coffee-producing countries. The refiners seem to have sugars well in hand, and as the demand is steadily increasing, prices are likely to go some higher. The wool market drags somewhat, but prices are fairly well maintained. Receipts of the new clip come in slow, owing, it is thought, to the backwardness of the season, which prevented shearing commencing as early as usual. Millers, are taking matters easy. Wheat rules so much higher in price than when manufactured into flour, the cost of manufacturing being deducted. that the less flour they make the better are they off. An early change is looked for, as the demand for flour has increased largely of late. The prod-uce markets are active. Strawberries are coming in quite freely; prices are firm at our quotations. New potatoes are firmer, and good stock will bring \$4 per barrel. Eggs go off 1 cent, and are weak at that quotation. Butter plenty and prices tending still lower. A few new apples and black raspberries came on to the market to-day, but they sold at nominal prices; before the week closes large arrivals are looked

for. Other markets present no new features. There was a fair attendance on 'Change today, and the bidding more spirited than last week. Prices on wheat ruled a shade lower than on Saturday, while on corn and oats most grades were about the same. Track bids

Varieties of Cherries. Pittsburg Stockman. Cherries are divided into two distinct classes -the hart or sweet varieties and the acid varieties. The former have been subdivided into bigarreaus (those with firm flesh), and hearts (with tender flesh); but the two subdivisions approach each other so closely in many varieties that there is no special line of demarkation,

and the distinction may as well be given up.
The difference in the two subdivisions of the said

varieties is more clearly marked, the morellos being quite acid, like the English morello and the Early Richmond, which generally require the Early Richmond, which generally require to be cooked before they are eaten; while the dukes are sub-acid, and very pleasant to eat from the tree, some of them being equal to the finest sweet cherries. Mayduke, indeed, when fully ripe, is not behind the very finest sweet cherry, though a trifle more acid than Governor Wood and Coe's Transparent. Of the choice heart varieties, in addition to the two just mentioned, Elton, Ohio Beauty, Mezel, Red Jacket, Belle of Orieans and Early Purple may be named. The latter is not so sure a bearer as the others, although an excellent. bearer as the others, although an excellent fruit; but it is the earliest of all cherries, often ripeniug by the middle of May, and so claims admittance here. Of the dukes, Mayduke certainly occupies the first place in quality, growth, bearing and all. Other choice varieties of this subdivision are Archduke, Late Duke, Belle Magnifique, and Reine Hortense, Belle de Choisy is of the highest quality, and would be included only for its babit of very early bearing. It is a beautiful, symmetrical tree; quite oroamental, especially when covered in spring with its large white blossoms, which, somehow and strangely, rarely produce a plut of fruit on a tree fifteen feet high. The morellos are valued for cooking, but require the addition of sugar to modulate the acid. The trees are very hardy, much more so than the other classes, and they can often be grown and fruited successfully in rich level soils where the others would fail entirely. Good varieties are Early Richmond (or Kentish), English morello, Montmorency, Ordinaire and Dyehouse. The latter is a choice variety, a great and very sure bearer, and should be better known. It resembles Early should be better known. It resembles Early Richmond closely, but is supeior in several re-
